

Description:

Stainless steel plenum boxes are equipped with high-quality plastic connectors in the CLICK system. These feature integrated gaskets, which significantly accelerate installation and guarantee system airtightness.

PEFLEX INOX Ø75 plenum boxes are designed for the installation of PEFLEX round ventilation ducts with an external diameter of 75 mm. Each box is equipped with mounting brackets featuring Ø6.3 mm and Ø8.4 mm mounting holes.

Directional PEFLEX INOX plenum boxes are available in two variants:

- Socket type: for direct connection of diffusers Ø100, Ø125, or Ø160.
- Nipple type: for connecting extension ducts with internal diameters 100, 125, or 160 mm.

Dimensions:

mounting bracket

Nipple-Type Plenum Boxes (for extension)

	Product code	Connector quantity	øD (hole diameter) [mm]	A (length) [mm]	B (width) [mm]	H (height) [mm]	h (spigot height) [mm]
for ø100 air diffusers	1x75/98	1	98	120	130	100	53
	2x75/98	2				200	
	3x75/98	3				290	
for ø125 air diffusers	1x75/123	1	123	150	150	100	53
	2x75/123	2				200	
	3x75/123	3				290	
for ø160 air diffusers	1x75/158	1	158	190	190	100	53
	2x75/158	2				200	
	3x75/158	3				290	

Socket-Type Plenum Boxes (direct diffuser connection)

	Product code	Connector quantity	øD (hole diameter) [mm]	A (length) [mm]	B (width) [mm]	H (height) [mm]	h (spigot height) [mm]
for ø100 air diffusers	1x75/100	1	100	120	130	100	53
	2x75/100	2				200	
	3x75/100	3				290	
for ø125 air diffusers	1x75/125	1	125	150	150	100	53
	2x75/125	2				200	
	3x75/125	3				290	
for ø160 air diffusers	1x75/160	1	160	190	190	100	53
	2x75/160	2				200	
	3x75/160	3				290
